## Tax Credits for Solar Panels

This legislation allows for individual homeowners and businesses to apply for grants to cover the cost of solar panels on the buildings they occupy.

To create this grant fund, taxes will be increased incrementally on homeowners and business owners solely utilizing traditional coal/electric energy.

- 1) 5% will be added as a “solar panel tax” to these individuals on each energy bill upon the enactment of this Act.
- 2) Each quarterly billing period will reflect a 5% increase
- 3) If consumer pledges to utilize solar panels within the following calendar year, a 3% solar panel tax will be applied until the units are installed and in effect.
